

The background features a dark blue gradient on the left, transitioning into large, overlapping, semi-transparent shapes in shades of purple, magenta, and orange on the right. These shapes create a sense of depth and movement, with the orange shape being the most prominent in the foreground.

AWS re:Invent

NOV. 27 – DEC. 1, 2023 | LAS VEGAS, NV

DAT319 - R

Making your Amazon Aurora cluster more resilient

Tim Stoakes

(he/him)

Senior Principal Engineer

AWS

Tim Gustafson

(he/him)

Principal Database Specialist SA

AWS

What is resiliency?

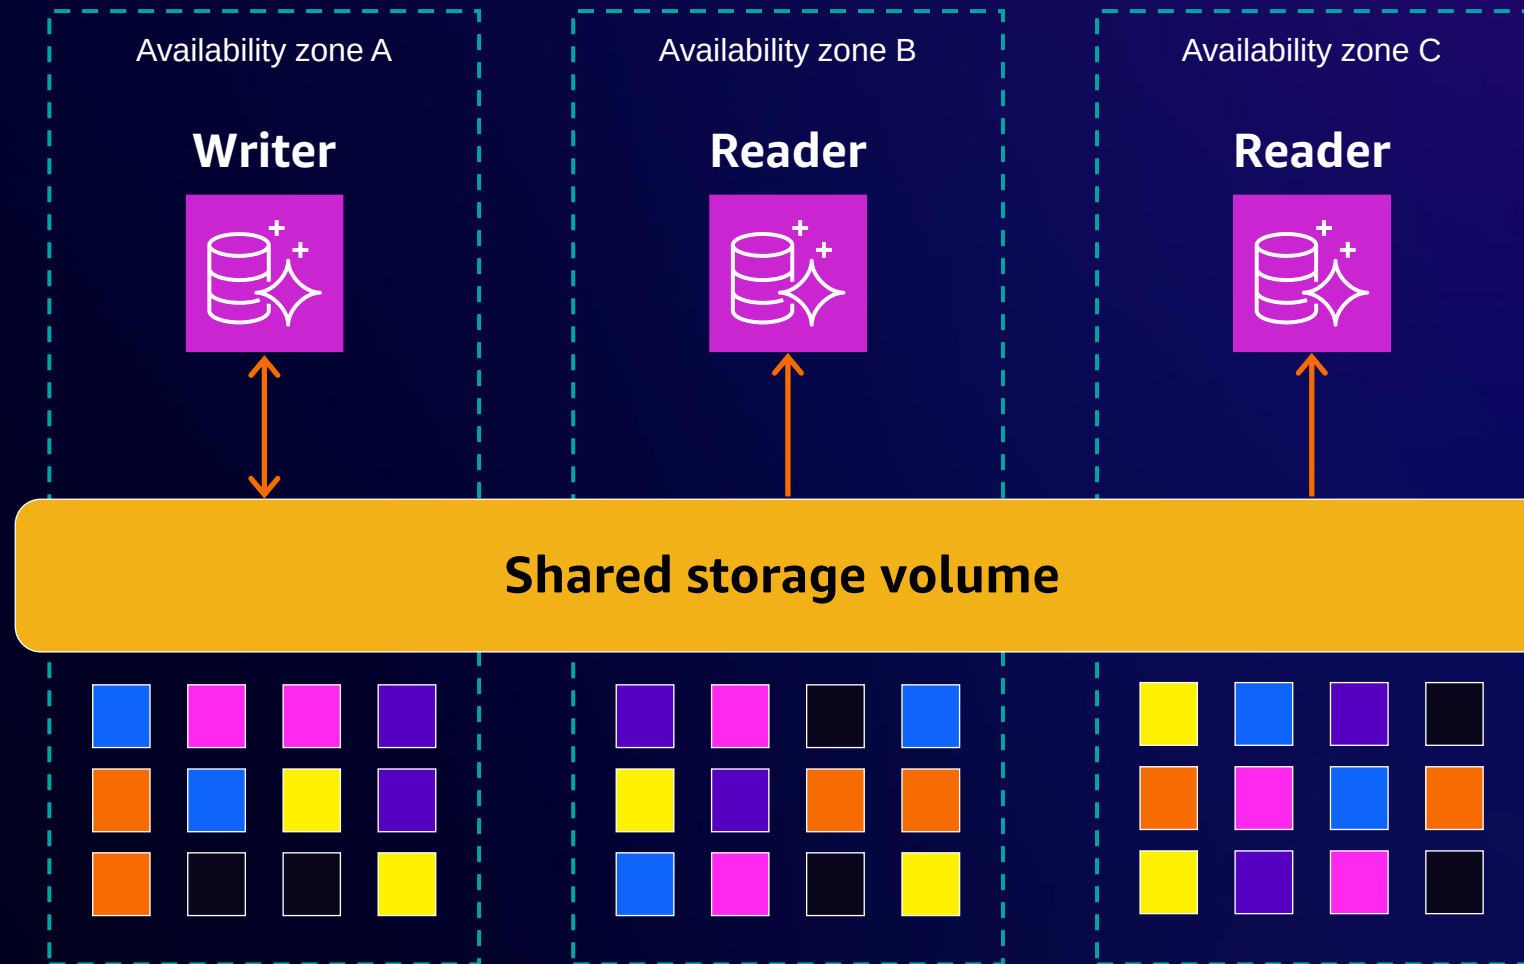

The ability to:

- Recover from disruption
- Dynamically scale to meet demand
- Continue operating even when impaired

Agenda

- Quick review of some resiliency-related Amazon Aurora features
(15 minutes)
- Whiteboarding session answering your questions
(45 minutes)

Aurora architecture

Backup and restore

**Point-in-time
restore**

Snapshots

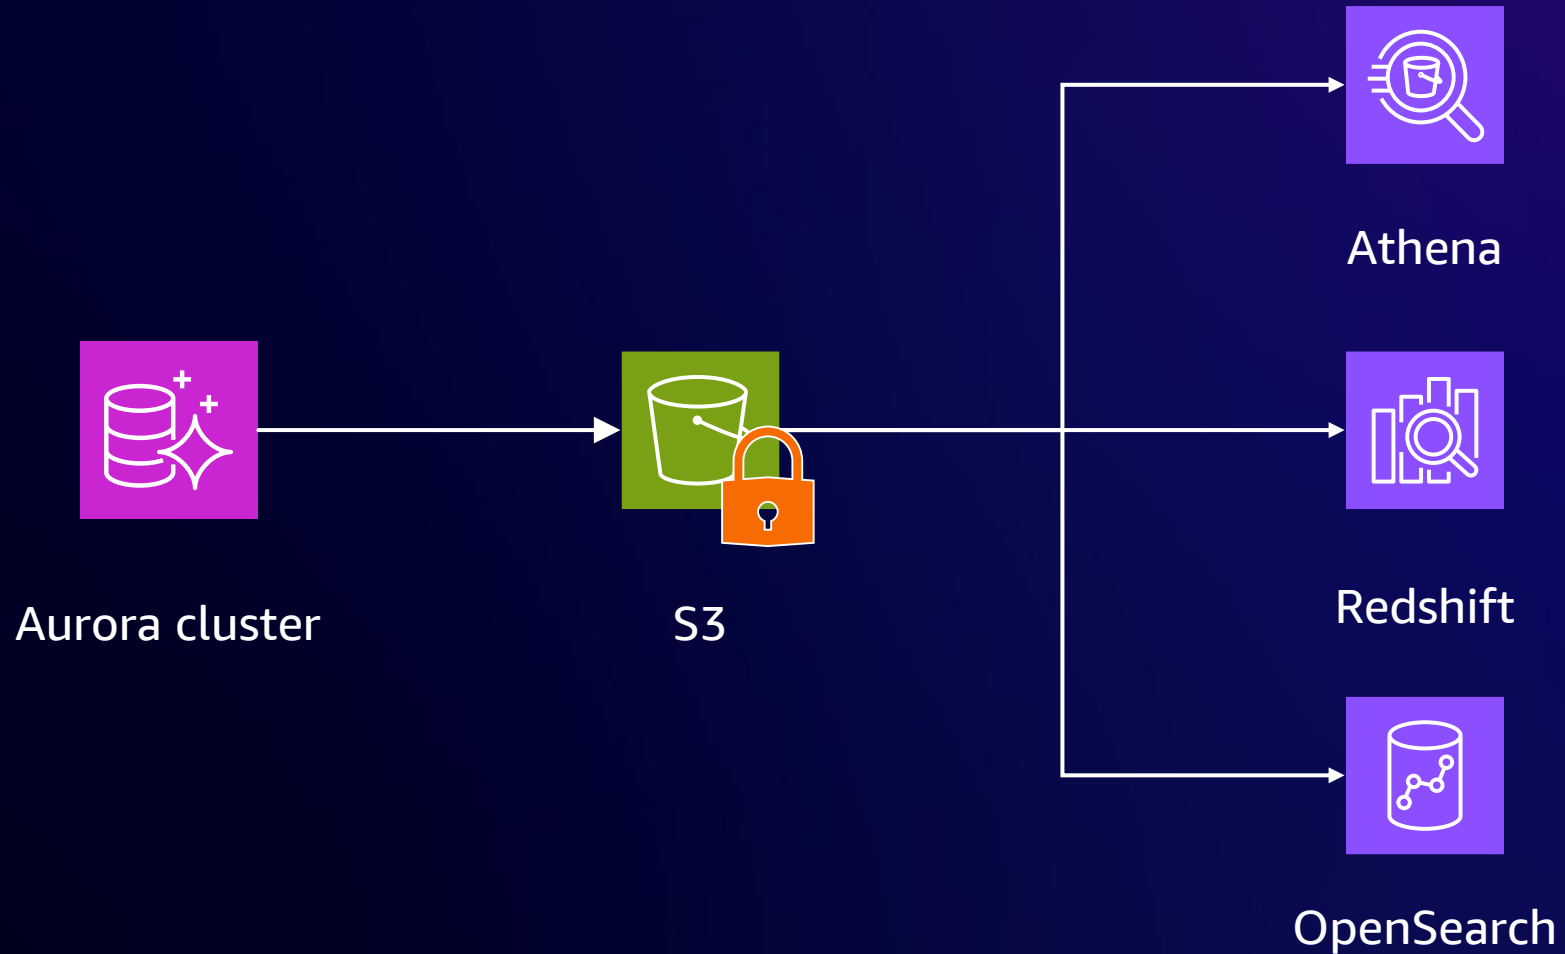

AWS Backup

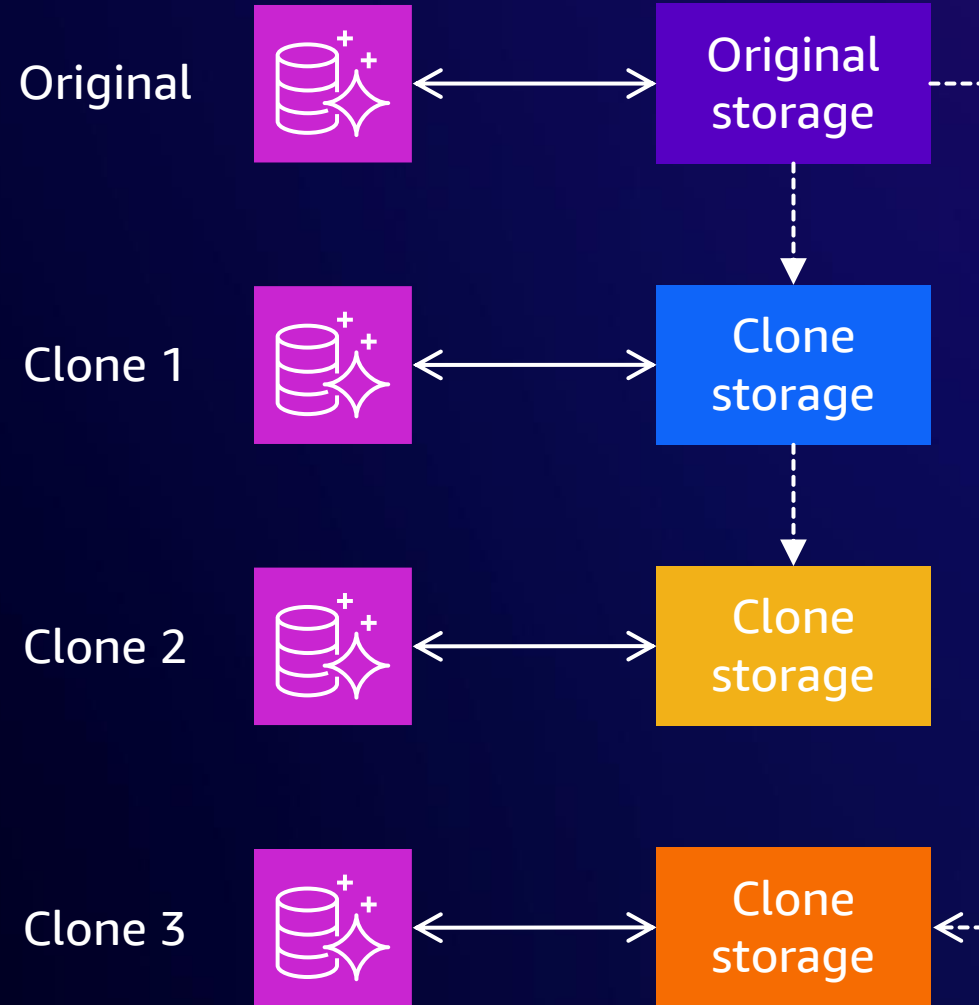

Amazon S3

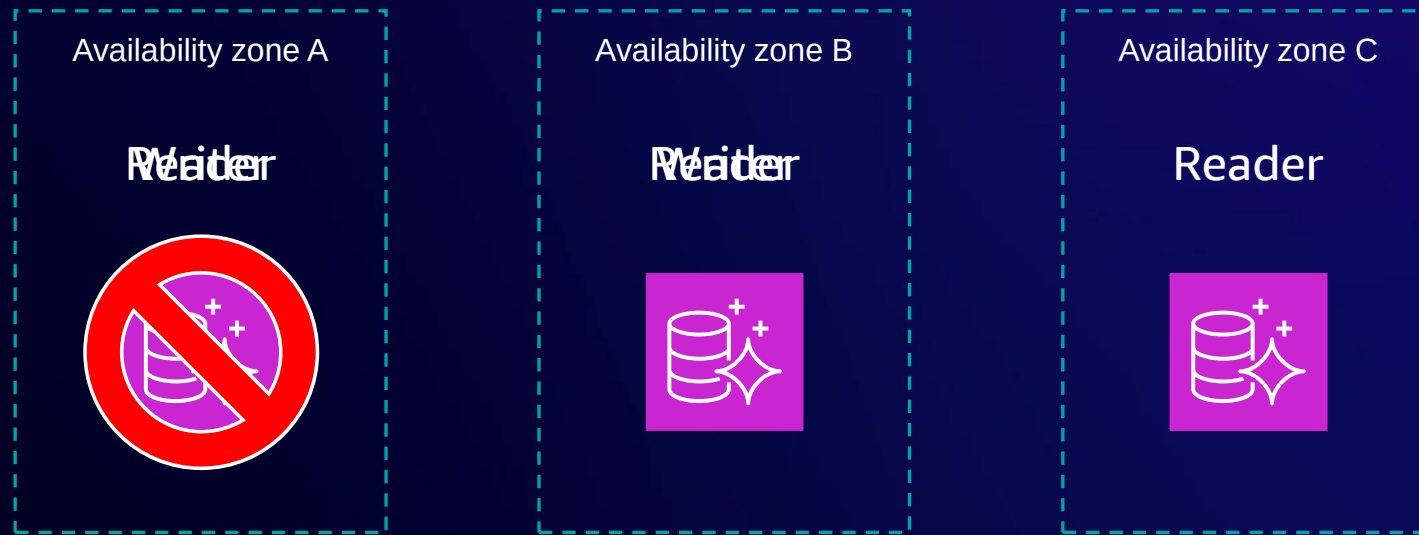

Exporting cluster data to S3

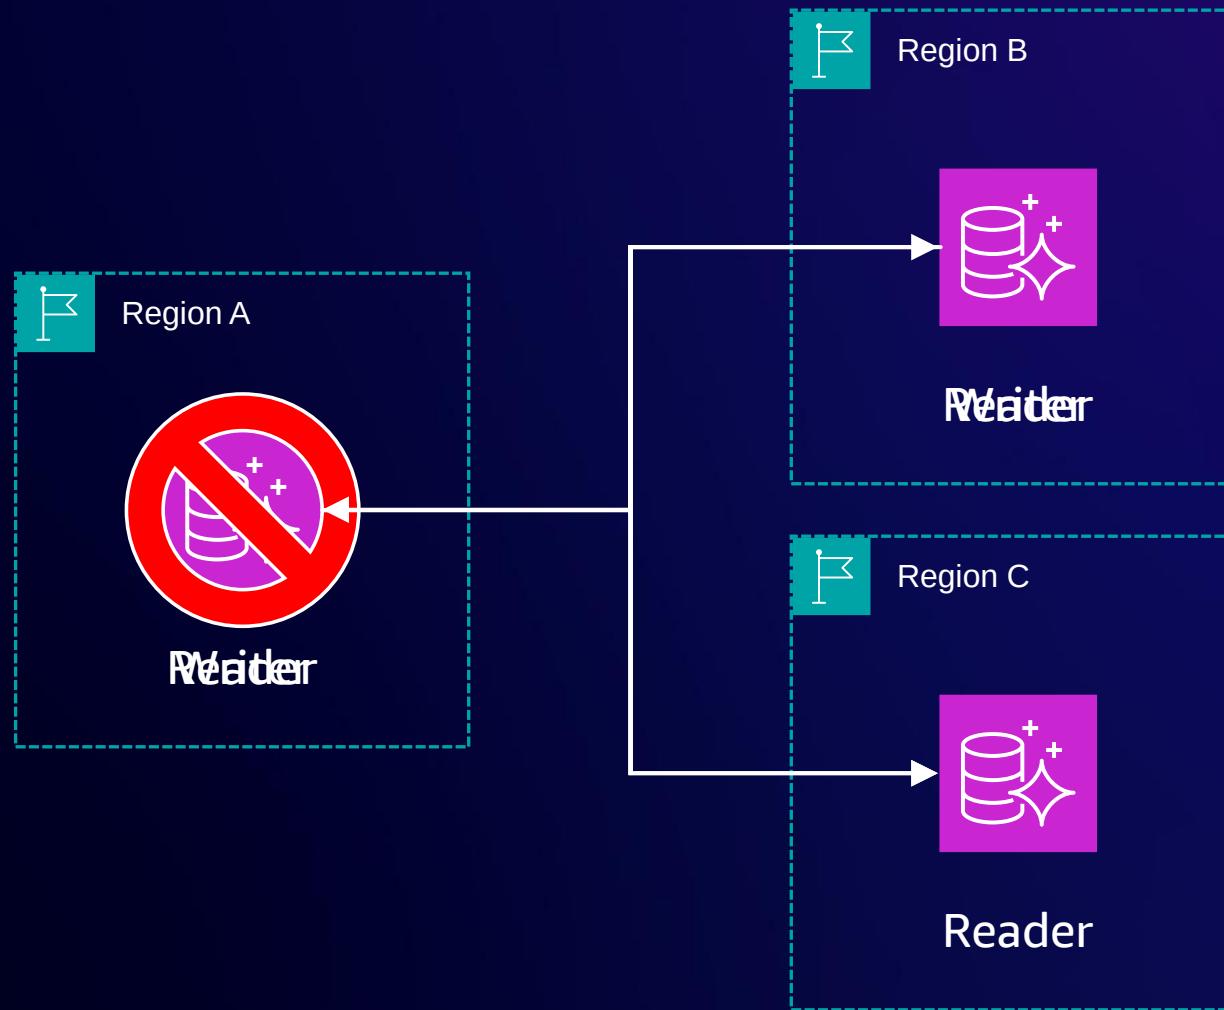

Amazon Aurora fast clones

Read replicas

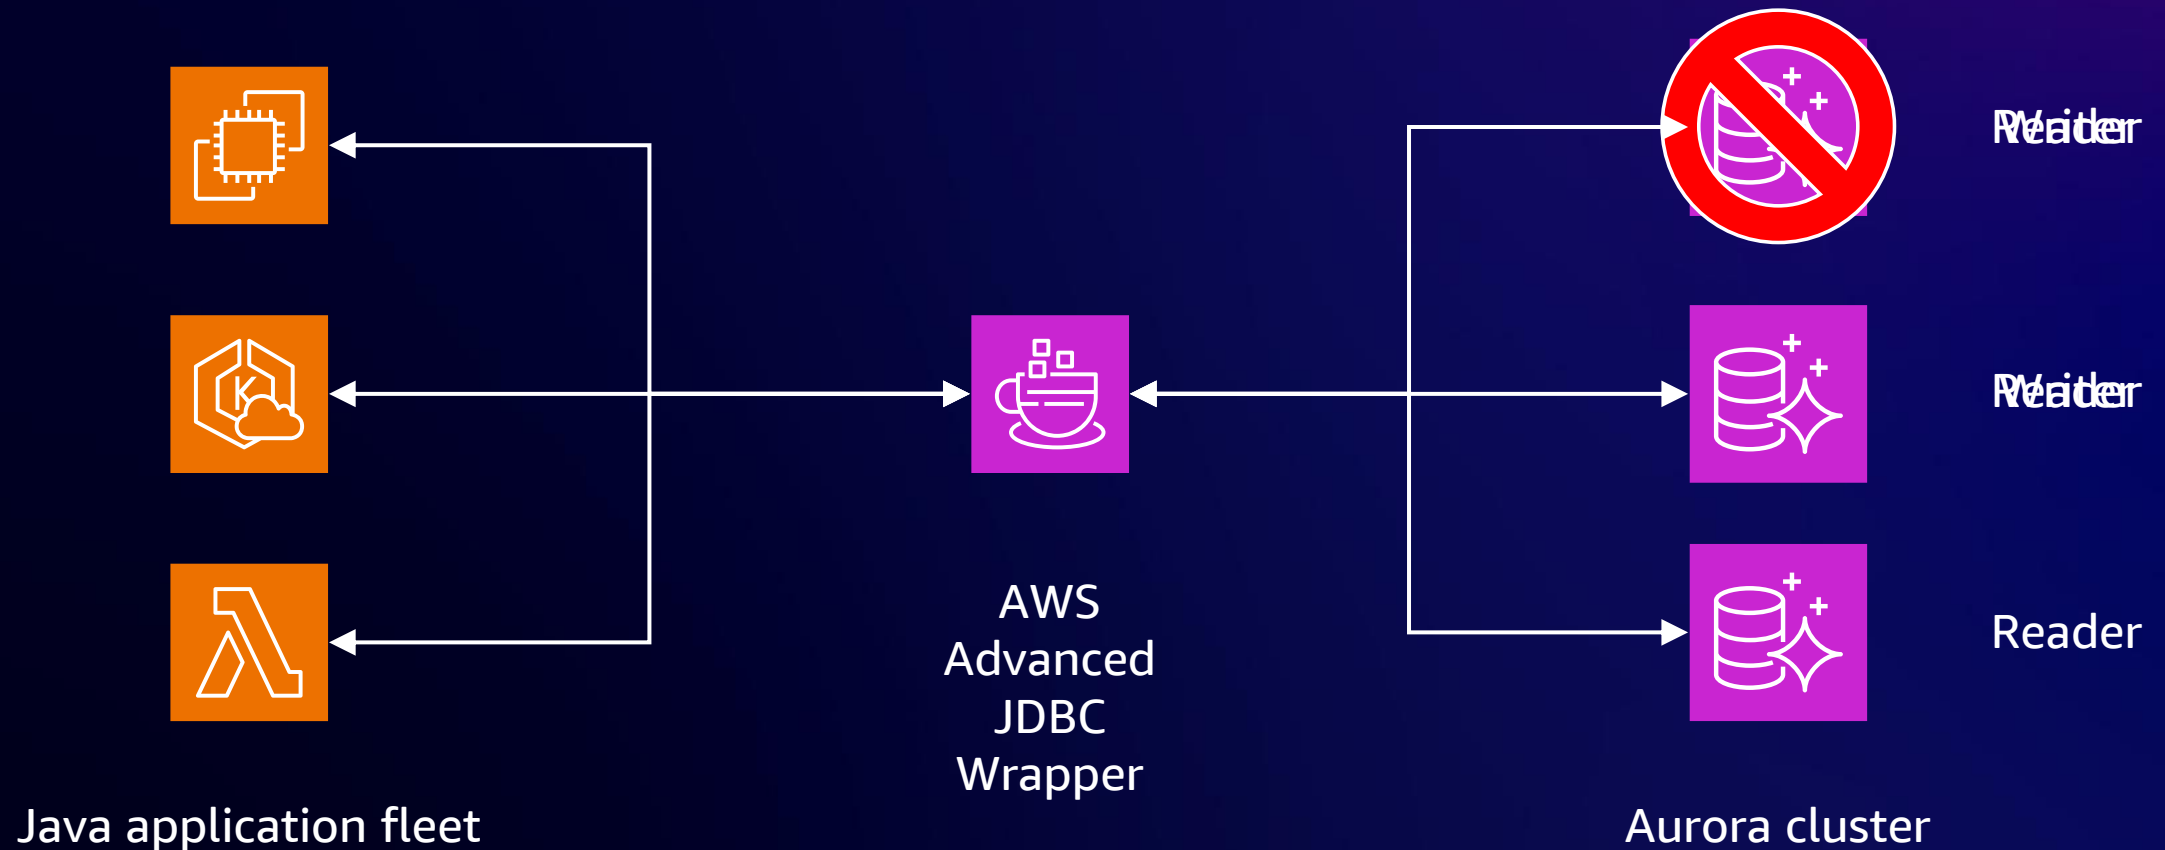

Amazon Aurora global database

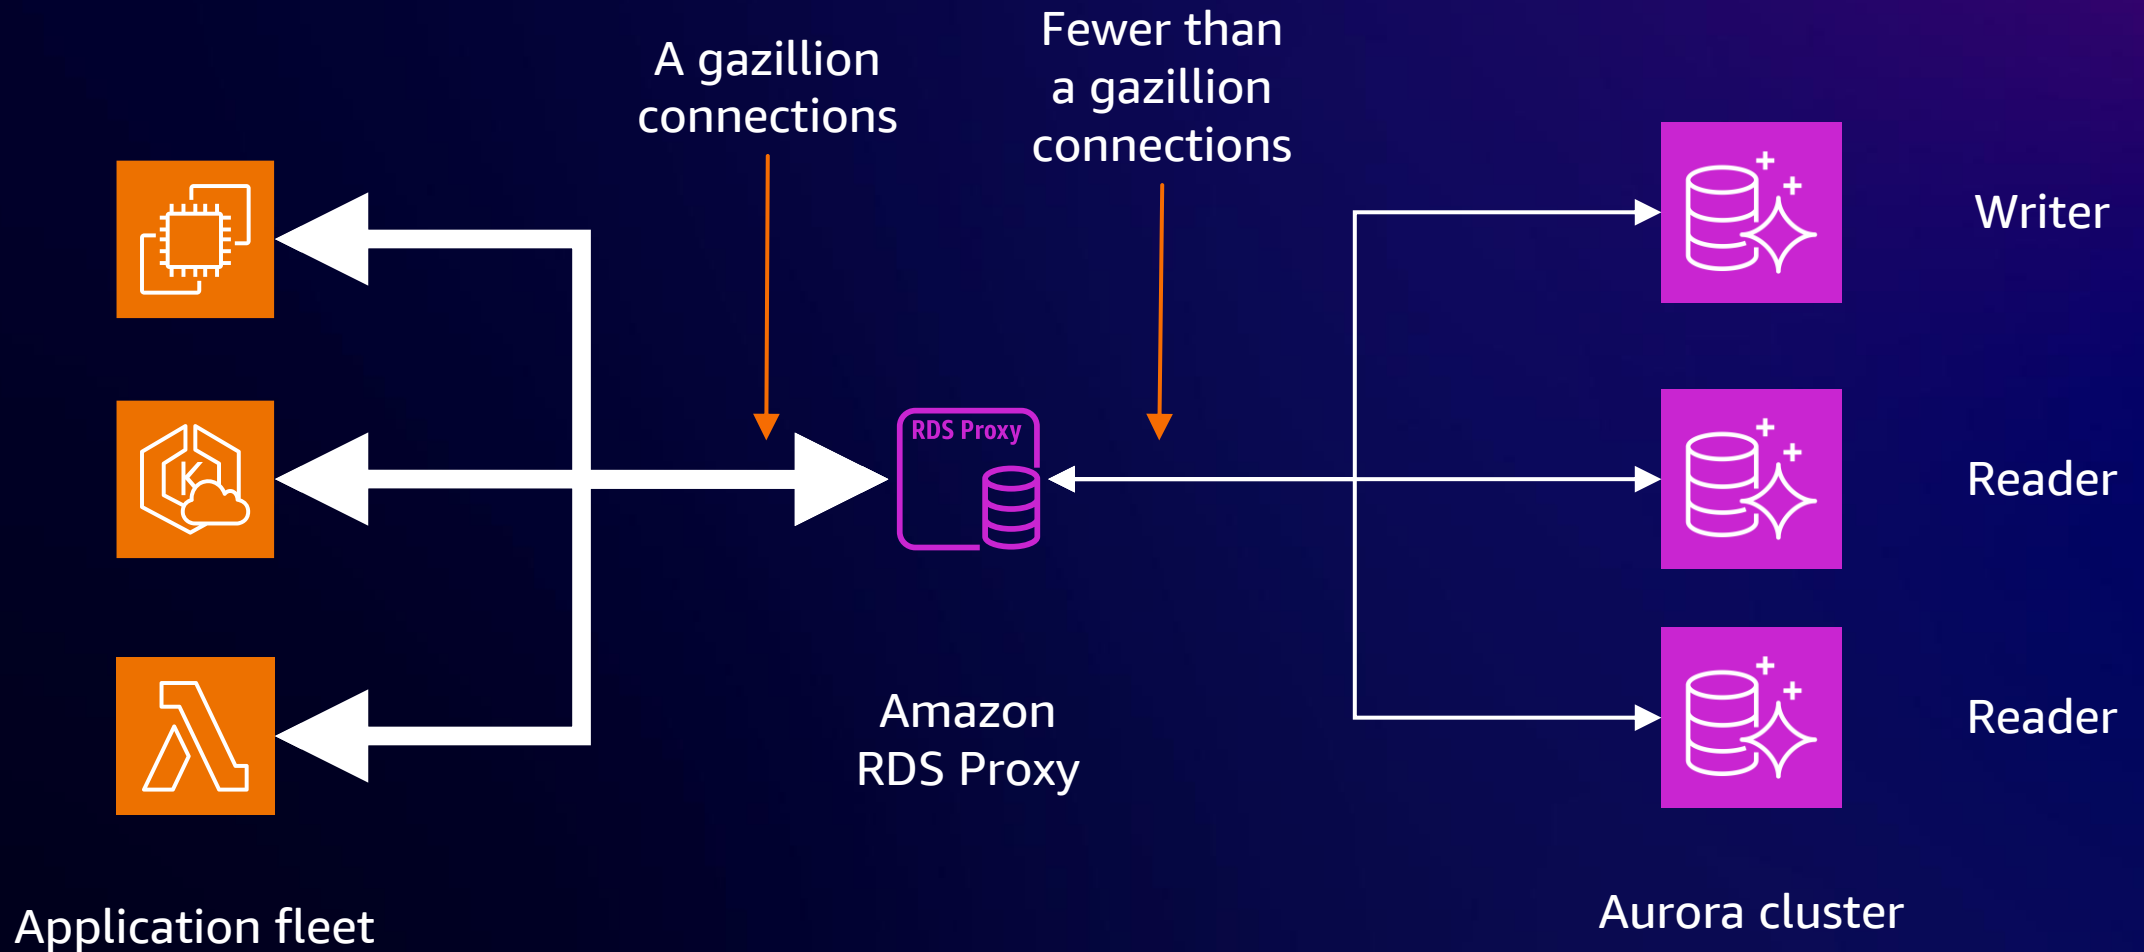

Aurora Serverless v2

AWS Advanced JDBC Wrapper

Amazon RDS Proxy

Whiteboard time!
