Driving organization adoption

Driving organization adoption

- Make it **easy** to do the **right thing**
 - Boiler-plate, **ready to deploy** starting points
 - Core patterns offered **as-a-service**, CI/CD included (**full-time team required**)
- **Measure** adoption, keep a scorecard, **report** broadly
 - Metrics (# of deployments, # of rollbacks/sev-1 incidents)
 - Surveys (collect feedback, enhance offerings)
- Embrace **evangelist** teams (for example, Security, Operations, Quality)

Conclusion

Thank you!
