

The background of the image features a dark blue gradient on the left, transitioning into a large, vibrant, abstract shape on the right. This shape is composed of overlapping curved segments in shades of orange, pink, and purple, creating a dynamic, modern aesthetic.

AWS re:Invent

NOV. 27 – DEC. 1, 2023 | LAS VEGAS, NV

MKT303 - R

Build production-ready Kubernetes clusters in minutes

Omar Chehab

Sr. Product Manager
Containers, AWS Marketplace
AWS

Sandeep Kashyap

Principal Tech BD
AWS Marketplace
AWS

Carlos Tagle

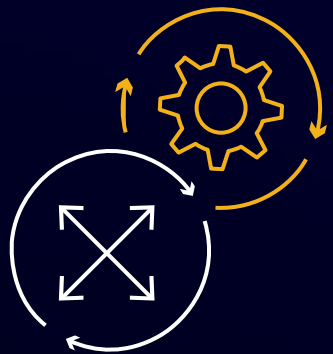

Head of International Tech
Business Development
AWS Marketplace
AWS

What will we discuss today?

- 01 Why do we want production-ready clusters
- 02 Understanding production-ready Amazon EKS
- 03 Requirements can be addressed by additional software
- 04 Journey to Find 3P software
- 05 New Launches to assist with process
- 06 Demo
- 07 Next steps if you are a partner

Considerations about production-ready EKS clusters

Operational
excellence

Security

EBS CSI

Third-party vendors

Your experience finding third-party solutions

Customers face roadblocks and friction during each step

Launching AWS Marketplace for EKS add-ons

RIV
2022

AWS expands the EKS add-on API catalog to include 3P tools from AWS Marketplace

Amazon EKS

aws marketplace

Single pane of glass

Find, select, deploy, and maintain software on the Amazon EKS console

From the Amazon EKS console, or EKS add-ons APIs using eksctl, or infrastructure as code tools like Terraform

Pre-scanned common vulnerabilities and exposures (CVEs) and validated to launch on EKS clusters

Subscribe to third-party EKS add-ons

DIRECTLY FROM THE EKS CONSOLE

New in
2023

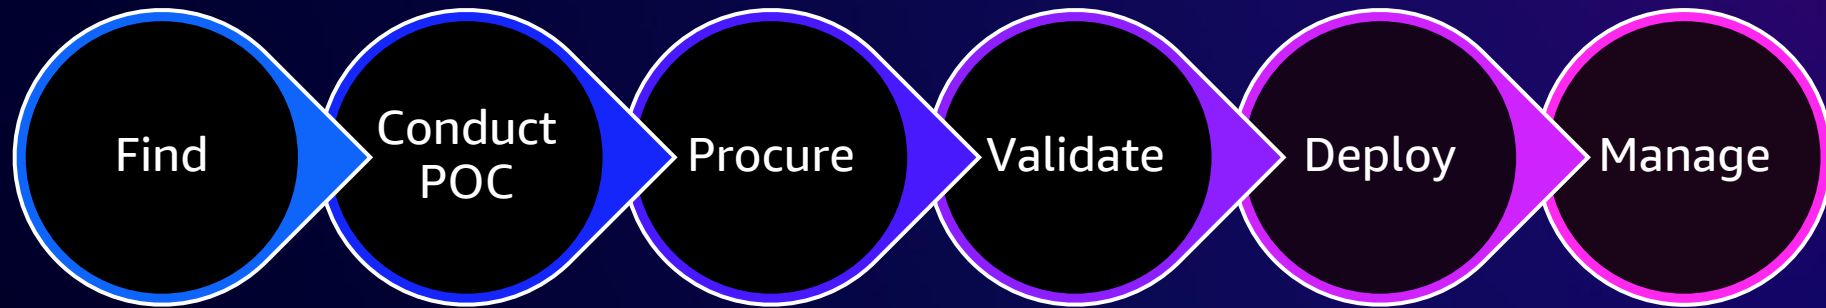

Now subscribe to third party software from the EKS console

AWS Marketplace subscription benefits, including consolidated billing, private offers for negotiated deals, and lower pricing for long-term contracts

Find, subscribe, deploy, and maintain free or paid software from third-party vendors directly on the Amazon EKS console

Your experience finding third-party solutions

75%

**reduction in
onboarding effort**
for new vendors

66%

time savings
due to procurement
efficiencies

10%

drop in licensing costs
due to increased
licensing flexibility

Amazon EKS Addons Buyer Experience

```
## Using EKSCTL
#Describe Addon Versions
eksctl utils describe-addon-versions --kubernetes-version 1.24 | grep AddonName

#Describe Addon Configuration
eksctl utils describe-addon-versions --kubernetes-version 1.24 --name tetrate-io_istio

#Create Addon
eksctl create addon --cluster ${testcluster} --name tetrate-io_istio-distro --version latest
eksctl create addon --cluster ${testcluster} --name kubecost_kubecost --version latest

#Describe Addon Status
eksctl get addon --cluster ${testcluster}

#Delete Addon
eksctl delete addon --cluster ${testcluster} --name tetrate-io_istio-distro --preserve

#Update Addon
eksctl update addon -f update-addon.yaml
```

INITIALS OF LAST Z REGION:

Next steps for ISV builders – Requirements

Software selection

Gitops | monitoring | logging | certmanagement | policymanagement | costmanagement | autoscaling | storage | networking | metadata/storage backup | ingressservicetype | loadbalancer | localregistry | secretsmanagement | security

Procurement model

- Sold through AWS Marketplace (MP)
- Integrated with licensing and metering APIs (if paid software)

Next steps for ISV builders – Requirements

- **Helm Charts:** Software must be deployed through a helm chart
- **Custom configuration:** Add custom variables during deployment
- **Support for AMD and ARM architectures:** Support **both** architectures
- **Integrate with licensing or metering APIs:** BYOL not supported
- **Version updates:** 45 days to certify with new EKS cluster version release

Call to action

Deploy EKS Clusters with 3P software through Terraform

AWS Marketplace Seller Workshop

EKS Best practices

Deploy 3P Software with Amazon EKS Add-ons ft. Tetrade Istio
