

The background of the image features a dark blue gradient on the left, transitioning into a large, vibrant, abstract shape on the right. This shape is composed of overlapping curved segments in shades of orange, pink, and purple, creating a dynamic, modern aesthetic.

AWS re:Invent

NOV. 27 – DEC. 1, 2023 | LAS VEGAS, NV

SVS319-R

AWS Lambda performance tuning: Best practices and guidance

Luca Mezzalira

Principal Solutions Architect – Serverless
AWS

Matt Diamond

Principal Solutions Architect

Three problems to discuss (15 minutes each)

- Getting the best out of a Lambda function
- Structuring a serverless microservice
- Lambda developer experience

Continue your AWS serverless learning

**Learn at your
own pace**

Expand your serverless skills with our learning plans on **AWS Skill Builder**

**Increase your
knowledge**

Use our **AWS Ramp-Up Guides** to build your serverless knowledge

**Earn AWS
Serverless badge**

Demonstrate your knowledge by achieving **digital badges**

What is ServerlessVideo?

A live video streaming application built with serverless technologies

- **Generative AI titles:** Uses Amazon Bedrock and Amazon Transcribe to automatically create descriptive video titles
- **Plugin architecture:** AWS Step Functions and Amazon EventBridge provide a pluggable architecture that supports extensive feature additions
- **Versatile serverless compute:** Uses a combination of serverless computing substrates for enhanced flexibility
